Department/Office: Community Development
Meeting Date: February 24, 2025

Summary:

City Hall Presentation

Overview of the City's newest software "See,Click,Fix." SeeClickFix is a convenient platform that allows residents to report non-emergency issues like potholes or streetlight outages, directly to their local authorities. By using the app or website, you can submit requests and track their progress as they're resolved. It's an effective way to improve your community, streamlining communication between citizens and officials.
